

## Senior Director, Spend Management and Administration

### Angie Bruns, MHA

#### Top skills

Leadership  
Relationship-oriented  
Strategic mindset  
Change management  
Team building  
Analytical thinking

Ms. Bruns is responsible for building strong teams and driving operational excellence in a learning environment that accelerates value for the organization. Ms. Bruns has a robust supply chain background with a focus on change management, team building, and strategy development.

For over a decade, Ms. Bruns has worked across the supply chain continuum, partnering with medical professionals and healthcare leaders to shift from a traditional supply chain into a clinically integrated supply chain.
